- ☐ At age 18 or after

The Arc of Cowlitz County's Individual and Family Support team works with individuals and families of children with I/DD to understand their needs, identify gaps in support, and help connect them with appropriate supports and services that will be meaningful to them. We believe in a team approach that brings a family, their community, and possible service providers together.

Please understand that while it is our goal to support every individual or family who makes a request for services, our staffing and resources are limited to what our current funding can support. Although it remains our goal to provide some level of support to all individuals who experience a disability, we must prioritize our services to those who have a diagnosis or are suspected of having an intellectual or developmental disability and need support to obtain a diagnosis.

Questions or concerns? Contact The Arc at 360-577-9093.

Please note that completion and submission of this referral/request for services does not guarantee approval of services.
